## About Me

My name is Dhaifan Dito Adrian (23 years old) a bachelor graduate from Agriculture Engineering, ITB 2020. I have an interest in web developing field especially in front-end side. I'm a self-taught developer who is comfortable working with HTML, CSS, JavaScript, and using React JS as framework. I'm also have an experience using design application such as CorelDraw and Photoshop.

## Portfolio

### Personal Website

<https://dhaifandito.github.io>

This page is a responsive landing page contain information about myself, including navigation feature and carousel image slider with link to my other project.

- HTML, CSS, JavaScript

### To Do List Site

<https://dhaifandito.github.io/todoapp/>

A simple to do list site, with a function to add list, delete list, and check the list, also have the warning to fill the list and time before submit.

- React JS, SASS

### E-Commerce Site

<https://dhaifandito.github.io/potatoplanet/>

A responsive e-commerce website with header, navigation bar, footer, and another section (cart, about, blog, product, contact). This website also have a function to add item to the cart and delete it, automated calculate the price to pay and give the alert if the item is already on the cart. Also using a hash route to jump to another section.

- React JS
